CENSUS OF THE COMMONWEALTH OF AUSTRALIA, 30TH JUNE, 1961

VOLUME VIII.—AUSTRALIA

PART III.—POPULATION AND DWELLINGS IN LOCALITIES

PREPARED UNDER INSTRUCTIONS FROM THE RIGHT HONORABLE THE TREASURER
BY 26
K. M. ARCHER,
COMMONWEALTH STATISTICIAN

7255/63.

CENSUS OF THE COMMONWEALTH OF AUSTRALIA, 30TH JUNE, 1961

VOLUME VIII.—AUSTRALIA

PART III.—POPULATION AND DWELLINGS IN LOCALITIES

PREFACE

This publication shows, for each locality in Australia with twenty or more dwellings (occupied or unoccupied) or fifty or more persons, the geographical co-ordinates, the numbers of occupied and unoccupied dwellings, males, females and persons, and occupied dwellings and total persons on rural holdings.

This is one of three Parts of the Census Volume for the Commonwealth of Australia, viz., Part I.—Cross-classifications of the Characteristics of the Population; Part II.—Cross-classifications of the Characteristics of Dwellings and of Householders; and Part III.—Population and Dwellings in Localities.

Each State Volume contains, in addition to three Parts corresponding to the Parts of the Australian Volume, two Parts which provide information on population and dwellings in respect of individual local government areas and towns of 1,000 persons or more (750 in Tasmania). The State Volumes consist of:—Part I.—Analysis of Population in Local Government Areas and in Non-municipal Towns of 1,000 Persons or More (750 in Tasmania); Part II.—Cross-classifications of the Characteristics of the Population; Part III.—Analysis of Dwellings in Local Government Areas and in Non-municipal Towns of 1,000 Persons or More (750 in Tasmania); Part IV.—Cross-classifications of the Characteristics of Dwellings and of Householders; and Part V.—Population and Dwellings in Localities.

In addition, a number of supplementary statements in mimeographed form are being issued. A summary of mimeographed and a list of printed 1961 Census publications already issued is shown inside the back cover of this Part.

Explanatory notes relative to the contents of the Part follow this Preface.

K. M. ARCHER,
Commonwealth Statistician.

Commonwealth Bureau of Census and Statistics,

Canberra, A.C.T., August, 1963.

EXPLANATORY NOTES

The particulars shown in this Part relate to the numbers of the population and dwellings (occupied and unoccupied) in cities, towns and other localities throughout Australia in which twenty or more dwellings or fifty or more persons were enumerated at the Census of 30th June, 1961. In addition to the total population and dwellings enumerated in each locality, the number of occupied dwellings and population enumerated therein stated to be situated on rural holdings of one acre or more are shown. A rural holding for Census purposes is one on which agricultural, pastoral, dairying, &c., operations are carried on. These particulars have already been published for each of the six States separately in Part V. of the respective State Census Volumes, but details for localities in the Northern Territory and the Australian Capital Territory have not been previously shown in a Census publication.

In addition to the details mentioned above the geographical co-ordinates of each locality are included. These were determined from Australian Aeronautical Series maps and maps published by commercial cartographers, supplemented by information provided by Census collectors. They are provided only for the purpose of enabling the relative position of the various localities to be found and are not necessarily precise enough for cartographic plotting purposes. In general, for localities containing a nucleus of dwellings, co-ordinates refer to that nucleus. However, for the metropolitan areas and some other urban areas, co-ordinates refer to the main post office. For localities where no nucleus of dwellings was apparent, co-ordinates refer to the centre of the area. It has not been practicable to provide references for " near " localities or for certain camps and institutions.

All dwellings enumerated in the rural sections of the State have been allotted to localities, and details of localities which at Census date had less than twenty dwellings and a population of less than fifty persons are therefore available in the Census records, although not published in this Part.

With the exception of localities within the City of Blue Mountains (New South Wales), the City of Greater Wollongong (New South Wales), and the City of Gold Coast (Queensland), for which full particulars are shown, particulars of any locality whose population was wholly or mainly included in an urban area have not been separately tabulated. The urban areas of Australia are:—the Metropolitan Areas (the capital cities of the States and the City of Canberra, the National Capital); the urban areas of Newcastle, Ballarat, Bendigo and Geelong; Kalgoorlie and Suburbs; Launceston and Suburbs; urban Municipalities; and urban parts of Municipalities and Non-municipal Towns of 1,000 persons or more (750 in Tasmania). Total populations of such urban areas and of their constituent local government areas, where applicable, are shown. To distinguish these from individual localities they are indicated as follows:—

An amalgamation of several urban areas—Capital letters, e.g. ADELAIDE, METROPOLITAN AREA OF.

An urban area other than a Non-municipal Town—Capital letter and small capitals, e.g. ABERMAIN.

A Non-municipal Town—Capital letter and lower case with the letters N.M. in parenthesis, e.g. Aberdeen (N.M.).

The numbers of occupied dwellings and persons on rural holdings in these areas have not been tabulated because of the predominantly urban nature of the areas. Where a major proportion of the population of a locality was situated *outside* the boundaries of any such area, separate particulars are shown for that portion of the locality only.

In rural areas clearly defined boundaries of towns and other localities are seldom available, and the figures shown have been derived from Census schedules relating to the dwellings which were stated to be within the generally accepted limits of the town or locality specified. Details of towns were compiled separately wherever the requisite information was available from Census Collectors or from Census maps. In the absence of information necessary to separate the town from the surrounding district, the whole area has been regarded as one locality, which therefore may cover a very wide area, especially in the less densely settled areas of the State. Dwellings located beyond the limits of a town for which details were separately recorded, and which were in an area which had no other recognized name, were recorded as " near " the appropriate town. In such cases, details are shown for both town and " near " where either had twenty or more dwellings or a population of fifty or more persons.

Information concerning dwellings and population on rural holdings is provided in order to give a better appreciation of the nature of the locality.

For Census purposes the Metropolitan Area of Brisbane comprises the City of Brisbane, the City of Redcliffe and part of the Pine Rivers Shire. The City of Brisbane, because of its size, has been separated into 55 Statistical Areas.

Following the procedure used for the 1954 Census, boundaries have been determined for towns with a population of 1,000 persons or more (750 in Tasmania) which were not separately incorporated for purposes of local government. Such towns have been termed Non-municipal Towns and are indicated in Census publications by the addition of the letters " N.M." after the name of the town.

For each locality situated within a local government area the name of the local government area is shown. " Not Incorporated " is used in the column headed " Local Government Area " to indicate localities situated in parts of the State not incorporated for purposes of local government. Maps showing the boundaries of local government areas in each State are included in Part I. of the relevant State Volume, a map of the Northern Territory is in Part I. of Volume VII. and a map of the Australian Capital Territory in Part III. of Volume VII.

For the Australian Capital Territory, " Canberra " is used in the column headed " Local Government Area " to indicate a suburb of Canberra, and " Rural " to indicate a locality situated outside the City.

In this Part, for the sake of conciseness and to achieve uniformity of presentation, the term " Municipality " is used to represent a Municipality in New South Wales, a City, Town or Borough in Victoria, a City or Town in Queensland, a Municipality in South Australia, a Corporate City or Town in Western Australia, and a City in the Northern Territory. Similarly, the term " Shire " is used to refer also to District Councils in South Australia. In Tasmania there are 49 Municipalities which, except for the Cities of Hobart and Launceston and the Municipality of Glenorchy, are more akin to the " Shires " of other States than to " Municipalities ", and they have been treated herein as " Shires ". The Cities of Hobart and Launceston and the Municipality of Glenorchy have been treated as " Municipalities ".

The last section of this Part shows, for each local government area, the localities recorded within it and their populations. " Near " localities (except in certain important cases) and localities representing complete local government areas, or representing parts of local government areas included in Metropolitan Areas, are excluded.

The Particulars of this Part exclude the numbers of full-blood aboriginals and of dwellings occupied solely by them.

Wherever practicable, information concerning " construction " and other settlements or camps is shown separately from the general town population. Particulars of military camps or other defence establishments are not shown.

For the purposes of the Census, an " occupied dwelling " is any habitation occupied by a household group living together as a domestic unit, whether comprising the whole or only part of a building. The term has, therefore, a very wide reference, and includes, in addition to houses and flats, a great variety of " dwellings " ranging from a single-roomed shack to a multi-roomed hotel or institution.

" Unoccupied dwellings " include vacant dwellings available for sale or renting; dwellings such as " week-ender ", " holiday home ", " second home ", " seasonal workers' quarters ", which were not occupied on the night of the Census; dwellings normally occupied but whose usual occupants were temporarily absent on the night of the Census; newly completed dwellings whose owners or tenants had not entered into occupation on the night of the Census; dwellings described as " condemned ", " awaiting demolition ", " deceased estate ", " exhibition home ", &c.; and buildings constructed as dwellings but used for non-dwelling purposes on the night of the Census. The total number of unoccupied dwellings shown for any area must not, therefore, be read as representing the number of vacant houses and flats available for sale or renting.

The following abbreviations denote the respective States or Territories:—N.S.W. (New South Wales), V. (Victoria), Q. (Queensland), S.A. (South Australia), W.A. (Western Australia), T. (Tasmania), N.T. (Northern Territory) and A.C.T. (Australian Capital Territory).

In this publication certain instances of incorrect data, mis-spellings, and other minor defects which appeared in corresponding State Parts have been corrected.

COMMONWEALTH OF AUSTRALIA—LOCALITIES

LOCALITIES IN EACH LOCAL GOVERNMENT AREA AUSTRALIA

Listed below according to the State and local government area in which they were situated are all those localities shown in the previous table, excluding (i) " near " localities (except in certain important cases), (ii) entries representing complete local government areas or amalgamations of local government areas, and (iii) entries representing parts of local government areas included in Metropolitan Areas. Localities situated in parts of the State not incorporated for purposes of local government are listed under the heading " Not Incorporated ".

Where localities were situated in more than one local government area, separate details are shown for each part, except where part of the locality was included in an urban area (other than the City of Blue Mountains, New South Wales, the City of Greater Wollongong, New South Wales, or the City of Gold Coast, Queensland) in which case details are shown only for that part of the locality outside the urban area. In all cases where details refer to only part of a locality, the part has been indicated by an asterisk (*).
